The 15th specialized exhibition of the Islamic Republic of Iran in Turkmenistan

From 26 to 28 November 1402

It was held in Ashgabat with the presence of 94 Iranian companies and more than 300 Iranian businessmen and economic activists.

The exhibition "Iran project" is a major national measure to introduce the goods, products and technical services and engineering of Iranian companies specializing in the fields of oil and gas equipment and derivatives, petrochemicals, water and electricity and energy, construction industry, building materials and technical and engineering services in overseas markets, especially the CIS region, and to develop marketing, marketing, sales of goods and follow up on the acquisition of export quotas of the Iranian market in the region for the greater presence of exporters and the volume of non-oil exports of the country. The exhibition focuses on four axes: oil and gas and petrochemicals, industry and construction equipment and materials, water and electricity and energy and the issuance of technical and engineering services and road construction . . . It was held.
